Dear Mr. Welch:

Blessings to you in this New Year.

Last year, our school was presented with a very delicate issue regarding our heating system. Because of the necessity to keep our school in session, the principal and I were confronted with possibly closing the school for a few days unless we were able to address this issue.

Your team of workers arrived one day to assess the problem. Then, in consultation with me that first day, we were able to address the problem beginning at 4:45 the following morning. They were able to address those issues that would have caused noise disruption during non-school hours. By the end of that morning, our heating system was once again working.

Your workers were very professional, courteous and knowledgeable.

Thank you for your service.

In Christ,

Fr. Daniel Leary
