To: Mr. Eric S. Craddock
Welch and Rushe
Re: Letter of Appreciation
From: Margaret Bergamini

I would like to convey my appreciation for a job well done on the weekend of August 20, 1999. In addition to your ideas on how to redesign the work in the West Wing mechanical room, the hard work of your crew minimized the shut down of the A/C to the West Wing of the White House.

Due to the outstanding workmanship of David Keffer, Michael Butland, James Edwards, and Anthony Dustin, the shut down was minimized to just fifteen hours. Please pass my thanks and appreciation on to these gentlemen.

I look forward to completing this project with you. Keep up the outstanding work!!

Sincerely,

Margaret J. Bergamini, P.E.
