Re: IRS Headquarters
Modernization/Flood Repairs
06-138
RE: Thank You – Congratulations

Dear Mr. Welch:

Recently the Internal Revenue Services Headquarters Modernization Project received a Washington Contractor Merit Award in the Renovation/Restoration category. We at Grunley Construction wish to express our appreciation for the effort put forth by Welch and Rushe during the flood repairs, as well as completing in progress work from the initial modernization. This project has truly been a team effort by all involved. Without the positive attitude brought to the jobsite each and every day, the cooperative spirit and the quality workmanship, this project would not be nearly as successful.

On a personal note, I wish to thank you for your help, education, and integrity during the entire construction process. This project has been a great experience and education for me personally as I continue to develop my knowledge in the Construction Industry. This knowledge and experience is gained by working with sub-contractors and individuals such as those at Welch and Rushe.

That being said, please accept both Grunley Construction's and my personal thanks for your role in making this project a success. Additionally, please find the enclosed certificate of Congratulations from AGC of Metropolitan Washington DC for your efforts in the IRS Headquarters Modernization.

Grunley Construction and I look forward to working with Welch and Rushe in the future on other award winning projects.

Very truly yours,

GRUNLEY CONSTRUCTION CO. INC.
